### BULLETS WHIZZED

Close to Jailer Williamson's Head in the Dark.

Ollie Brown, a Colored Desperado, Escapes From Jail—Aided By a Woman.

Ollie Brown, a desperate negro prisoner, escaped from jail about one o'clock Wednesday morning, after firing two shots from a pistol at Jailer W. T. Williamson. The jailer owes his life to Brown's lack of marksmanship, and not to his indisposition to kill.

Brown is the negro who was recently arrested, charged with entering the toll office on the Nashville pike for the purpose of robbery and firing several shots at the toll keeper, Lawson Smith, who discovered in the room. He leaped from window and escaped and was at large for several months. He was visited in the jail Sunday by Viola Wheeler, a woman claiming to be his wife, who spent several hours with him, and, it transpires, left a pistol and some files with him.

It has been a practice with some of the prisoners to burn rags in the cells to "smoke" each other, until Mr. Williamson would appear and stop it. The jailer was called about one o'clock Wednesday morning, and thinking something of this kind was on hand he took his keys and went into the corridor from the outer door. He started to reach for the electric light, but before he could turn it on a shot was fired and a bullet sped by his head. Still in the dark, he saw Brown dart by him and through the open door, turning once to fire another shot into the door to prevent pursuit. But the jailer was unarmed and thinly clad and in no condition to pursue an armed and desperate prisoner. The alarm was promptly given, but Brown made good his escape and is still at large.

With the tools furnished him, Brown had fled his way out of the cell and had also released some other prisoners. The others being without arms made no attempt to follow him in his break for liberty.

About 10 o'clock Wednesday the Wheeler woman was arrested on a charge of aiding a prisoner to escape and was lodged in jail. She denied her guilt, but she was taken to the Racket Store and identified as a woman who bought some files there Saturday. As she was with Brown Sunday, the chain of evidence is practically complete.

### WILL PROBATED.

All of Estate Bequeathed To Son and Daughter.

The will of the late Mrs. Henningham Hord was probated Wednesday. To her daughter Mamie, and son Thomas, she left her property in Pembroke, consisting of a lot on which are several houses. Her son, David S. Hord, was named as executor. The instrument was dated July 22, 1897, and was witnessed by Messrs. E. M. Murphy, D. S. Hord and D. R. Murphy.

### THIN ICE

But the Cold Spell is No Longer Here.

Another cold snap came Tuesday, reached its height yesterday morning and is passing off to-day. The mercury was down to 20 degrees Wednesday and 16 yesterday. The spell was altogether too mild to hold out any hope of ice and it is now almost certain that there will be no ice this season. The ice this week was an inch or more thick and there was some skating. Two days more of the cold wave might have made the crop thick enough to put up.

Mrs. H. C. Moore is visiting relatives in Princeton this week.

### TRYED TO POISON.

Morrow Family Finds Strychnine In the Food.

Fortunately Discovered Before the Poison Had Been Eaten.

An attempt to poison the families of Mrs. T. J. Morrow and her son, Thos. L. Morrow, was made last Sunday.

Strychnine was placed in the food intended for dinner, while all of the members of the two families were away from home. On returning from church Mrs. Will Croft, Mrs. Morrow's daughter, stopped at a bowl of custard and tasted a few drops of it. It tasted bitter and her suspicions were aroused and examination showed small white particles in the custard. A further inspection showed that all of the food in the kitchen had been poisoned with what turned out to be strychnine. It was found sprinkled over a dish of ham and also in the coffee pot. The coffee was thrown out and a dog that licked it up was thrown into convulsions.

The white powder was tested Wednesday and found to be strychnine. There was enough in it to have killed a dozen people.

The servants claimed to know nothing about it and the whole affair is still involved in mystery.

Mr. Morrow is a son of the late Judge T. J. Morrow and lives with his mother near the city. Some months ago he had some of his stock poisoned and a few nights ago nearly all of his fine game chickens were killed.

He doesn't know whom to suspect, as he says if he has an enemy he doesn't know who it is.

### SIXTEEN SOLDIERS

Secured Up To Yesterday at Noon  
By Lieut. Shackelford.

Lieut. Shackelford has been in the city all of the week recruiting men for service in the United States army. He is making his office in Dr. McDaniel's office in the McDaniel building. Up to noon yesterday sixteen soldiers had been enlisted. Of these five were white men and eleven colored. The names are withheld by the recruiting officer. He will remain the rest of the week.

The men will leave Saturday night for Louisville and from there will be sent as soon as possible to Manila.

### POPS WON'T FUSE.

Reject Republican Overtures In Caldwell County.

Princeton, Ky., Feb. 20.—The attempt of the Republicans to get the Populists to fuse with them has met with a signal failure. The Populists will not consent to any of the overtures tendered them. The office of sheriff was offered them, but they declined and W. J. Brown has announced for the Republican nomination for that office.

### BACK FROM THE ARMY.

Clarence Giles Returns From the Philippines.

Mr. Clarence E. Giles, who has been absent for two years in the United States Army in the Philippines, returned home Wednesday. He arrived in San Francisco from Manila, a week or two ago, and after being mustered out, came on to the time and was reported to have died the next day. The burial was hurried one and gave rise to neighborhood rumors that Merrick did not die at all. Opinion is still divided as to whether he is dead or living.

Prof. C. B. Pittman and wife, of Lafayette, will, in a few days, leave for California to make their future home. Mrs. Pittman has been in bad health for some time. They will make a short visit to Mr. Pittman's relatives near Greenville before taking their departure for the Pacific coast.

### ONE HUNDRED DOLLARS

Damages Awarded the Merricks In Suit Against Officers.

Cadiz, Ky., Feb. 21.—The jury Monday returned a verdict of \$100 for the plaintiffs in the damage suit of Robert Merrick and wife against Deputy Sheriffs Wiley Jones and William Dodd.

The Merricks sued for \$5,000 damages for the humiliation consequent upon the effort of the officers to arrest Frank Merrick on a forgery charge. Merrick was ill at the time and was reported to have died the next day. The burial was hurried one and gave rise to neighborhood rumors that Merrick did not die at all. Opinion is still divided as to whether he is dead or living.

It is believed the defendants in the damage case will take an appeal.

### THREE MORE PEARLS.

This Time One Oyster Yields a Pearl.

Mr. James P. Thompson, the tobacconist, broke the record a finding pearls in oysters. He found two in one oyster. They were about the size of those previously found by G. H. Champlin and T. S. Knight.

One was round and the other oval in shape. Like the others found, these were heated in cooking the oyster and injured.

Mr. P. P. Huffman, of Church Hill, also reports finding one a few days ago in the same way. In his case the oysters were eaten raw and the gem discovered is uninjured and is a beautiful stone. In size was about like all of the others found.

All of these, as well as that of Mr. Champlin, were found in oysters bought from J. K. Twynam and came from S. M. Fauch, of New Orleans.

**BABY AT 65.**

**Death of One of Nature's Most Remarkable Freaks.**

**Since Birth Ellen Leek Has Been Helpless and 'An All But Inanimate Object.'**

York, Feb. 19.—Although a woman of sixty-five, Miss Ellen Leek, really a baby of a few months, is still in Babylon, L. I. To physicians she was one of the most remarkable freaks in medical history. She ever heard a sound, never spoke a word, never walked a step, as the doctors say, never experienced a single sensation of pain or pleasure in her long life.

Physically she was animate. Mentally she was dead. Her nearest approach to human intelligence was when a child of nine years when she crawled much like an infant ten months. This was her only method of locomotion for many years, or until she became too feeble to move. She had been dying of age for the past two years.

Although dwarfed by inactivity, in nothing else, her heart and other organs of the trunk were normal, but there was enough only to sustain a negative activity. Even when she crawled she moved at a walk's pace literally.

Her face was a nightmare. Physically perfect as to features, the look of the slightest suggestion of intelligence produced a horrifying sensation on a spectator.

All her long life she had been cared for most tenderly by relatives who had learned to cherish the helpless thing in female form. She tutored many who passed in her family a happy or a sad existence.

**A Familiar Falsehood.**

When a customer seeks to purchase some well-known, widely advertised, standard article, and the dealer tries to sell him something else claiming the offered substitute "just as good," that dealer is guilty of flagrant falsehood.

If the substitute were just as good it would sell on its own merits and would be called for by customers instead of having to be unloaded from them by means of falsehood and deceit.

The very fact of the comparison "just as good," proves the claim to be untrue. We measure up, not down. We measure the less by the ear, not the eye, by the nose, therefore, some unknown or unknown article is ranged upon a shelf by a well-known standard article, the very fact of such measurement and comparison, stamps the substitute as a lesser thing than the standard article to which it is compared.

But this is only half the truth. In this we prove the claim "just as good" to be a falsehood, but the extent of that falsehood it is impossible to estimate. "Just as good" means, in general, adulteration in place of purity, an uncertain quality instead of a certain quality, cheap material instead of good material. And beyond all this the adulterators may not be simply make weights and cheats, but in some cases may be dangerous poisons.

When the dealer says "just as good," ask yourself "just as good" for whom? You will find in the answer to the question the motive of substitution, which is the extra profit paid the dealer by the sale of substitutes and imitations of standard wares. Practically the dealer says, when practicing the gentle art of substitution, "This is 'just as good' for you because it is a great deal more profitable for me, and anything is good enough for you which increases my profits."

Bands of stitched cloth trim the skirt and bodice of piano gowns.

A face that cannot smile is never good.

**Catarrh,**

Caused an American disease, is cured by an American medicine originated in the most catarrhal of American cities.

That medicine is Hood's Sarsaparilla. It cures radically and permanently. It will not only remove the cause, causing the blood of serofluids, and other impurities. It removes the effects of catarrh, too, and builds up the whole system.

**FRANCHISE TAXES.**

**Railroads Hit Hard With Heavy Back Taxes.**

**Statement Being Prepared in the Auditor's Office Giving Details.**

Frankfort, Ky., Feb. 20.—The state board of assessment and valuation on Saturday last, on the motion to have the franchise valuation of railroads for the years 1896-190 inclusive certified to the various counties, municipalities and school districts, decided in favor of the county attorneys. A careful calculation in the auditor's office has disclosed that the aggregate amount of the franchise to be thus certified will be the sum of \$56,408,184.

From the best information obtainable it seems that the rate of taxation combined for counties, municipalities and school districts is at least \$1.10 on each one hundred dollars worth of property, at which rate the total amount of money to be expended by the railroads to the various counties, cities and school districts will be the enormous sum of \$62,490,02. The appended list shows the amount of franchise that each railroad will have certified out unless interfered with by the courts. This, coming in the nature of back taxes, in addition to current taxes paid by each railroad to the state on its tangible and franchise property, makes a very heavy burden for the railroads to bear.

Cincinnati, N. O. and T. P., '96 to 1900..... \$12,994,265

Mobile and Ohio railway, '96 to 1900..... 669,631

Southern railway in Kentucky..... 2,020,570

Chesapeake and Ohio Railway company..... 8,099,160

Louisville & Nashville..... 5,809,495

Nashville, Chicago and St. Louis..... 1,379,061

Norfolk and Western, 1897..... 2,770

Total..... \$56,480,184

On account of the great number of calculations to be made in this appointment and blanks to be prepared to send to the counties, it will be two weeks before the certificates can be sent to county clerks.

**Dr. Cowgill Exonerated.**

Paducah, Ky., Feb. 19.—Miss Mary Murphy, who publicly assaulted Dr. Warwick M. Cowgill with a whip last Friday for an alleged attempt to flirt with her, has signed a statement in to-day's papers that she committed the act under a misapprehension and that Dr. Cowgill was guilty of no indignity toward her. The cases will probably be dismissed when called Thursday.

**Value of Farm Crops.**

The January bulletin of the department of agriculture gives the value of the principal farm crops of the United States grown last year. The figures are as follows:

Corn..... \$751,220,033

Wheat..... 323,515,177

Oats..... 649,335

Barley..... 24,075,371

Rye..... 12,254,517

Buckwheat..... 5,341,423

Potatoes..... 90,811,186

Hay..... 445,538,870

It appears that next to the corn crop hay is the most valuable of the northern grown farm products.

**BOY OF SIXTEEN**

**Eloped With His Aunt, Taking Her Young Child Along.**

Boston, Feb. 16.—Mrs. Meyer, aged 36 years, and her nephew, Solomon Jacobs, 16 years of age, were arrested in a West Point house this morning, where they were living as man and wife.

Mrs. Meyer's husband, Henry, came on from Williamson, N. Y. He stated that they eloped last week, and also took \$500 of his savings and his four-year-old child, leaving two small children to his care. Neither was penitent, and the enraged husband, failing to recover his money, ordered that they be prosecuted, and they were sent to jail.

The woman who gave her head into the lion's mouth, seems the type of reckless women. But she isn't. The

really reckless woman is the one who brings Nature day after day by neglect of health and the delinquency of organs. "Crime and punishment blossom on stem" says Emerson. When the cycle of self-neglect is completed it includes the deepest suffering which are the inevitable penalties inflicted by outraged Nature. The drain which to-day is counted an inconvenience, becomes a curse to-morrow, and carries with it an offensive stigma. The passing depression of an hour grows into a permanent melancholy.

The timely use of Dr. Pierce's Favorite Prescription will save young women from suffering, as it will cure those who through neglect have become martyrs to their marriage. No woman who goes to bed with pain in the side, bearing down pains, debilitating drains, ulceration or inflammation, should delay another moment. It helps every woman and her mate ninety-eight per cent. of all who give it a fair trial. It contains no opium, cocaine or other narcotics.

I am anxious to try your medicines after seeing the effect upon my mother," writes Mrs. Flora Ann, of Dallas, Jackson Co., Mo. "I am greatly bothered with periodic pains, also with pain in the abdomen, and until for work of any kind. I became so ill that I could not get up without help. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After taking it twice, I am now pain-free. I have had two more, and after I used those up there was no pain. I believe it does twice as much as I did, and I do not know of any which is so good. I think it is the best prescription I have ever taken."

Doctor Pierce's Pellets are specially adapted to the needs of delicate women.

## A MODERN PENELOPE.

Princes from All Europe Sought Wilhelmina's Hand.

The Young Queen is Not Beautiful, But Very Good to Look Upon—At Home in Kitchen & Well Saloon.

The young royal bride-to-be, Queen Wilhelmina Pauline Helen Marie of Holland, has had almost as many suitors as Penelope herself. For every royal house in Europe, except Roman Catholic families, that has a marriageable daughter to offer has laid claim upon Wilhelmina's hand and heart.

It is by the way, to "King" Wilhelmina, not "Queen," that officials and other public servants take the oath of allegiance. This was decided upon some time ago by the Dutch high court of justice, and was in a line with Queen Elizabeth's idea, "I desire to make Queen Wilhelmina something more than a strong woman; I wish to make her a king."

The nuptial ceremonies will last a week and will take place at Amsterdam, instead of The Hague, the palace of the former King being now too small. The throne-room is one of the magnificent apartments of the world, with its superb marble columns and crystal chandeliers, of nearly 400 lights. The throne itself is covered with ruby velvet and edged with ruby and gold fringe; it is supported by four lions, each containing a amphitheatre with a man in support; another crown and the letter "W" is wrought on the velvet just beneath. The front of the chair is a footstool to match the canopy. The canopy is curtained in ruby velvet, with gold cord; it is supported by a crown and a lion; on the inner center are embroidered the royal arms and motto: "Je maintiendrai."

The style of the ballroom is empire, with a small French piano at one end, while crimson and gold are the colors.

The order for heraldic gear of the queen was given to the famous school of art needlework in Amsterdam, who so successfully embroidered her coronation robes. One of her ball gowns will be of white satin, embroi-

dered all over with forget-me-nots in silver and pale blue.

The women of several different provinces have been invited to supply the national costumes. That of Friesland, the gift of 8,000 women, is described as quaint, if not strictly graceful, with its amplitude of drapery and silver hair ornaments. The gold and silver ornaments for the queen's headdress are preserved among the crown jewels.

No ruler in the world attends more strictly to her duties than Queen Wilhelmina. She is busy every day with the matters which her ministers lay before her and with the affairs of her court.

She has said she has no other concerns which we might rashly consider to be her pleasures—her receptions and state banquets—are, in fact, her most irksome duties.

During the "season" she is bound to notice, with exactly due attention, each one of the 200,000 ladies in the capital. Her note is kept of these courtesies and of the order in which she pays them, and she has punctiliously to acquaint herself of the whole duty down to the properly timed and measured chat with the last diplomat and his wife before the close of the last season.

The young queen is not beautiful, but very good to look upon—wholesome and frank, with a pleasant smile for everyone. She has blue eyes, a clear complexion, a Grecian nose; her forehead is broad and rather high and her teeth are large, rather high and even; her hair is dark, wavy, and falls in soft, loosely brushed back to show the "orange ear."

She has a well-shaped head and a slender, graceful figure, with a queenly bearing.

Her education having been conducted in the more conservative Dutch fashion, she is ignorant in domestic science, knowing how to cook and sew; she embroiders beautifully.

To stop dueling in Cuba.

Gov. Wood has decided to issue a decree whereby not only the principals in duels are liable to be punished, as provided by the present law, but also the seconds and the persons who carry the challenges.

Gov. Wood has received a petition from the mothers and wives of Cubans asking him to put down dueling, which is being used as a means of blackmailing or extorting money by certain expert swordsmen of Havana.

It is expected that by making an example of the seconds by putting them in the stocks for breaking their oaths to break the oaths of their countrymen, he will be able to stop the practice.

Jack, patriotic, of course, said he would alio to himself; but he doesn't take to anniversary like some other people.

"I think not," he said. "You have to celebrate unless you can induce some of the greasers to assist you."

A few moments later, Mabel was riding toward the house, to meet a young girl, who stood in the doorway of the home near the river, and who now and then repeated to the wave of her hand with a similar bearing.

"Jack, patriotic, of course," she said, "but he doesn't take to anniversary like some other people."

"I think not," he said. "You have to celebrate unless you can induce some of the greasers to assist you."

## Announcement.

Jas. E. Rogers, Republican nominee for representative, is a candidate for re-election at the November election 1901.

Newia, another of the great composers, is dead at New Haven.

Tom L. Johnson is the Democratic nominee for mayor of Cleveland.

The wife of Congressman Vincent Boering has been given a divorce without alimony.

Judge Evans has filed his election cases at Louisville to await further action by the Supreme Court.

G. A. Dehoney has been nominated for representative by the Democrats of Washington county.

The deadly folding bed has claimed another victim. At Minneapolis James Steward was shut up in one and his neck broken.

Senator Deboe, of Kentucky made a speech on the Nicaragua canal Tuesday. He failed to electrify the Senate and was not smothered with bouquets when he raged off.

Princess Ena, aged 14, is the beauty of the royal family of England and has already made a conquest. Prince Frederick of Germany is said to be very much in love with her.

The 37th Regiment U. S. V., Col. Cheatham has been mustered out at San Francisco and ten officers and 50 men will arrive at their homes in Nashville early next week.

There are ten George Washingtons in Louisville and all are colored. One of the Georges has a wife named Martha, Shelby county has a George whose wife is named Martha.

Delaware has led off in the re-establishment of the whipping post. A new law is now in active operation in the state, larceny and wife beating being the principal of offenses punishable with the lash. Connecticut is also agitating the subject in the legislature.

"Savoyard's" letters to the Post are just the character of "news" that the Post relishes most—principally abuse of the Democratic leaders in Congress. Savoarod used to be a contributor to Democratic papers, but he is evidently a chameleon who gets his color from the log he rests upon.

The West Point graduating class of 1901, 76 in the class, have been turned out this week, and many of the young men will at once be sent to the Philippines. North Carolina, Wisconsin and Missouri each furnished two of the ten honor roll men who will be assigned to the engineer's branch of the service.

Following the terrible explosion by which 61 miners lost their lives in a New Brunswick mine last week, comes the news of a similar accident at Tuscaloosa, Ala., Wednesday. The Warrior river broke into a shaft near the river, flooding a mine and 13 miners were entombed alive and are probably dead as they are cut off from hope of rescue.

The readers of this paper will be pleased to learn that there is at least one disease whose science has not been able to cure in all its stages. That is Calcar. Hall's calcar cure is the only positive cure known to the medical fraternity. Calcar being a constitutional disease, requires a constitutional remedy. Hall's calcar cure is taken internally and mucous surfaces are destroyed. It is a tonic, repairing the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its work. The proprietors offer \$100 for any case that it fails to cure. Send for testimonials.

How it redness the skin, itches, oozes, dries and scales!

Some people call it tetter, milk crust or salt rheum.

The suffering from it is sometimes intense; local applications are resorted to, but with little success.

It proceeds from humors inherited or acquired and persists until they have been removed.

Judge Hazen, of Topeka, seems to have found a way to stop Mrs. Nation's crusade. She was arrested on a warrant charging an international breach of the peace and a peace bond fixed at \$2,000. As she declared she would continue to smash saloons, no one could be found to go on her bond and she was placed in jail Monday and has not yet been released. In the meantime the "Carrie Nation Home Defenders" have organized at Winfield, Wellington, Herrington, Arkansas City and many other towns and issued ultimatums to the saloon keepers. In a resort to arms at one place on Tuesday while raiding, the wife of the bartender, Mrs. Hudson was killed and two other bystanders wounded. This is the first loss of life resulting so far from the "crusade" against liquor.

The Boers derailed one section of Gen. Kitchener's train at Klip River Tuesday and while the general got away they captured his baggage. Gen. Kitchener has temporarily abandoned the chase after DeWet and has returned to Pretoria. Smith-Dorrien's column also started Gen. Botha and lost 24 killed and 46 wounded, and an easiness is felt for the survivors of the column of 2000 men.

A London bicyclist ran against King Christian, of Denmark, who was promenading with Prince Waldemar, and after knocking the King over abused him for getting in the way, being ignorant of his identity. The bicyclist was arrested, but King Christian ordered his release.

**BECOMES A COUNTESS.****Miss Longworth, of Cincinnati, Weds the Count de Chambrun.**

Cincinnati, Feb. 19.—The marriage of Miss Clara E. Longworth, of Cincinnati, to Count Adelbert de Chambrun, of France, was solemnized at noon today by Bishop Ireland, a close friend of the bridegroom. The wedding took place at the home of the bride's mother, the widow of the late Judge Nicholas Longworth, on Grandin road, East Walnut Hills. The maid of honor was the bride's sister, Miss Annie Rives Longworth. The maids were Miss Elizabeth Groesbeck and Miss Anne Harrison. The Andersons were Messrs. George A. Anderson, Buckner A. Wallingford, William Ramsey, Burton Hollister and Lowell Fletcher Huntington. The bride was given in marriage by her brother, the Hon. Nicholas Longworth.

Miss Longworth is the granddaughter of the late Joseph Longworth, whose father Nicholas Longworth, was the first of the family in Cincinnati. He laid out the foundation for an immense estate, which will make his descendants wealthy. Mrs. Bellamy Storer, wife of the United States Minister to Spain, is an aunt of the bride. The Count de Chambrun has spent much time in the United States, his father having been for twenty years or more at Washington in the diplomatic service. The Count has an ideal home in the south of France.

**SHILOH BATTLEFIELD.****Reunion to be Held There on Fight's Anniversary.**

At a meeting held recently by the Shiloh Battlefield Association it was decided to have a reunion to commemorate the battle which was fought April 6 and 7, 1862. It is believed that the monuments which the State of Illinois is erecting will be ready and will be dedicated on this occasion. That state has spent about \$60,000 for monuments to mark the place her regiment held. Many other states have placed marks and monuments all over the battlefield.

**MEANS BUSINESS.****Tennessee Mob Making It Hot For Ravishers.****One Lynched and Two Others Will Be When They Are Captured.**

Fulton, Ky., Feb. 20.—The Mob at Dyersburg, Tenn., took Beebe Montgomery from the jail at Dyersburg last night and swung him up to the limb of the famous "Mike Lynch tree" five times, letting him down each time he was hauled up to make him confess his complicity in the assault with Fred King upon Miss Alice Arnold.

The negro denied his guilt and finally the mob carried him back to jail, more dead than alive and delivered him to the jailer.

The mob was led by an organized vigilance committee who decided not to lynch Montgomery until the third guilty negro was found, whom King implicated in his confession.

This negro is being sought for by detectives. The vigilance swears that when he is found the two will be lynched together. There is hardly any doubt that Montgomery will be lynched this week.

In his confession, King said they had slated five of the best young women of Dyersburg for the assault and this is the cause of the spirit of vengeance among the citizens. A number of negroes were whipped out of Dyersburg last night.

**An Arkansas Case.**

Men, Ark., Feb. 20.—A mob of eight men took Peter Berryman, a negro, out of jail to-day and hanged him to a tree. Berryman had been arrested on charge of having assaulted a twelve year-old girl whose condition is critical.

The claims of other cough medicines to be just as good as Chamberlain's are effectually set at rest by the following testimonial of Mr. C. D. Glass, an employ of Bartlett &amp; Dennis Co., Gardner, Me. He says: I had kept adding to a cold and cough in the winter of '97, trying every cough medicine I heard of without permanent help until one day I was in a drug store of Mr. Houlehan and he advised me to try Chamberlain's cough remedy and offered to refund my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I got a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines. For sale by all druggists.

**TELEPHONES IN THE SOUTH.****Bell Company Contemplates Extensive Development To Head Off Competition.**

New York, Feb. 20.—From a most reliable source it is learned today that the Southern Bell Telephone Company, operating seventy exchanges and a valuable long distance system in Virginia, North Carolina, Georgia, Alabama and Florida, contemplates an extensive development this year to head off competition, which exists extensively in Virginia, Georgia, Alabama and Florida.

All important points will be connected with the long-distance service, which may be extended to meet the contemplated Cuban connection.

The East Tennessee Telephone Company, operating under the Bell franchises forty exchanges in Tennessee, has already passed into the hands of the Cumberland Telephone Company. The capital stock of the East Tennessee Telephone Company is \$300,000; bonds, \$2,000,000.

I babbled into Mr. Blackman's drug store one evening, says Wesley Nelson of Hamilton, Ga., and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for sometime. I told him I had no faith in any medicine as all had failed. He said: Well if Chamberlain's pain balm does not help you, you need not pay for it. I took a bottle of it home and used it according to directions and in one week I was cured, and not since been troubled with rheumatism. Sold by all druggists.

**THE TELEPHONE.****Great Possibilities of This Very Useful Invention.**

Capital interested in the development of the telephone realizes that under patents granted to Dr. Papin telephony is very likely to make a wonderful advancement in the early years of the present century. The public is even promised that as a result of Dr. Papin's discoveries it will be possible to carry on a conversation over a transatlantic cable. If all the claims are supported, it is evident that there will come a general improvement in long distance land lines. It is just such possibilities as these that will give great interest to the telephone exhibit to be made at the Pan-American Exposition. At some time or other, in their homes or in connection with business affairs, almost everybody comes in touch with the telephone service, and for this reason they will be instructed as well as entertained by what the Pan-American Exposition will present for their enlightenment.

**ROYAL CHANGE.****Edward Shakes All of His Old Friends.**

London, Feb. 21.—King Edward is giving his erstwhile sporting friends the "frozen face" and the "marble heart." It is Prince Hal at the dawn of the Twentieth century. But the poor and discarded Falstaffs are being counted by the score. The latter victim of royal caprice is Lord Marcus Beresford, "Marky," as all male royalty called him, was the Prince of Wales' chief functionary in racing matters. In fact, he was Albert Edward's crony. On Saturday Lord Beresford called on the king and, extending his hand, exclaimed: "Howdy?"

"Good morning, Lord Marcus Beresford." And then the new king turned away, leaving Beresford the object of sympathetic glances from all around. The snubbed nobleman retired in tears and now all London is asking: "Who will be the next Falstaff to receive the 'fickle stare'?"

**Danger of Colds and LaGripe**

The greatest danger from colds, and laGripe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's cough remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of dangerous malady. It will cure a cold or an attack of laGripe in less time than any other treatment. It is pleasant and safe to take. Sold by all drugists.

**The Latest in Electric Lighting.**

Not more than 15 years ago the electric light was considered a novelty. Who cannot remember standing out in the street awaiting the first turning on of the current in their city or town? Today a large force of men at work wiring the beautiful buildings of the Pan-American Exposition, stringing wires about the grounds, in order that the wonderful display of lighting a great exposition may be made by means of electric current transmitted a distance of over twenty miles.

Edward Cudahy, Jr., has identified an ex-convict named James Calahan, under arrest at Omaha, as one of the men who kidnapped him. He says Calahan is the man who asked him to get into the wagon and subsequently kept company with him in the house to which he was driven.

**DISCHARGED MINERS**

**Suspected of Attempt to Blow Up a Providence Boarding House With Dynamite.**

**MADISONVILLE, Ky., Feb. 19.**—Unknown persons dynamited a boarding-house at Providence in which several nonunion miners were asleep last night, but owing to the imperfect way in which the work was done none of the inmates was hurt, although one end of the building was demolished. After the explosion about thirty shots were fired into the building, but no one was injured. It is suspected that this was an attempt of some of the discharged employees of the Providence Coal Company to injure some of the working miners and intimidate others. If failed to have the desired effect, as the men say they are not afraid and will continue to work as the operators have pledged themselves to protect them.

The operators claim they made a larger run-to-day than seventy-five preceding days, eleven cars. All mines in Hopkins county are running, the operators claim, with full forces and undiminished output. January was the banner month in the history of these mines, and they promise to exceed the January record during February. A number of organizers from Indiana, Illinois, Central City and elsewhere are here, but they have so far been unsuccessful in making any impression on the miners of Hopkins county.

It is understood that the grand jury now in session has under consideration the Carbondale trouble. Over thirty witnesses have been before it.

**ROMANTIC MARRIAGE.**

**Young Lady of Nortonville Weds a Man at Chicago Whom She Had Never Seen.**

For a long time Miss Eta Pendley, of Nortonville, has been carrying on a correspondence with a gentleman named Mr. Fred Pines, of Elmo, Minnesota. Though they had never seen each other a strong attachment seems to have sprung up between them through the medium of the mail, which culminated in their marriage a few days ago. An appointment was made by which the lovers were to meet at Chicago. Miss Pendley left last Sunday a week ago for the trysting place. Mr. Pines was on hand and after talking the matter over, their love was fanned into a stronger flame and securing a license, a minister bound them together in hymenial ties. After the wedding, they left for the home of the bridegroom in Minnesota.

Miss Pendley's marriage was quite a surprise to her associates around Nortonville, where she was a prime favorite with all. She is a charming and intelligent young woman, and is a sister of Miss Mattie Pendley, the Nortonville postmistress. The bridegroom is said to be a grain merchant in good circumstances.—Madisonville Hustler.

Mr. M. S. Perkins, has gone to Colbert, Indian Territory, to visit his brother-in-law, Mr. Harvey Wilson.

**HANNA TO RIDE**

**In the Inaugural Parade on the Fourth of March.**

**Congressional Committee Finds a Precedent For This Arrangement.**

Washington, Feb. 20.—The Congressional Inaugural Committee has decided that Senator Hanna, chairman of the National Republican Committee, will occupy the seat in the carriage with the President in the inaugural parade, usually occupied by the outgoing president.

This decision is based on a precedent established in Grant's second inauguration, when the chairman of the National Republican Committee rode with Gen. Grant to and from the Capitol.

On account of the relations between Hanna and Mr. McKinley, however, some Republicans have opposed the idea of his sharing a place with the President.

With the President and Hanna will be one member of the committee from the Senate and one from the House occupying the front seats of the carriage with Vice-President-elect Roosevelt.

Grimes entered the bedroom of Mrs. Rutledge and her daughter, and when they discovered his presence he was pulling the covering from over them. When he saw he was recognized, Grimes leaped from the window and fled. He was arrested by Deputy Sheriff Ollie Haynes.

**THE WEED.**

**Leaf Active and Firm at Last**

**Quotations.**

**Advance in Common and Medium Lugs—Receipts Considerably Heavier.**

There was a stiff tobacco market this week, the weed showing an upward tendency. Leaf was active and firm at last quotations and lugs commanded good figures. The sales were again made up of common leaf and lugs, very little good tobacco appearing.

Common and medium lugs advanced from  $\frac{1}{4}$  c to  $\frac{1}{2}$  c and other kinds held their own. Receipts for the week were 300 hogsheads, and sales amounted to 70 hogsheads, including lap in sales from last week.

Rejections were not large. Receipts for the year have been 1605 hogsheads and sales for the year \$26. The following quotations fairly represent this market for the week:

Common lugs, \$3.75 to \$4.00; medium lugs, \$4.25 to \$4.50; good lugs, \$5.00; low leaf, \$5.00 to \$5.50; common leaf, \$5.50 to \$6.50; medium leaf \$7.50.

**CHESS CHAMPION.**

**Public Exhibition By The World's Champion Player.**

Mr. H. N. Pillsbury, champion chess and checker player of the United States, will give a public exhibition on Saturday, the 23rd, at the vacant store room of the Cooper building.

The exhibition in the afternoon will be simultaneous over the board play.

Mr. Pillsbury will engage fifteen or twenty players of chess or checkers. The strongest players of the city will be pitted against him.

In the evening Mr. Pillsbury, blindfolded, will engage sixteen players at chess and checkers and take a hand at duplicate whist.

A number of gentlemen interested in these games have guaranteed the expenses connected with bringing Mr. Pillsbury to the city, and it is hoped they will be encouraged by a large audience to see the wonderful exhibition.

The afternoon play-will begin at 2:30 o'clock and the evening play at 8 o'clock.

An admission fee of twenty-five cents will be charged at the door to defray expenses.

All chess and checker players of Hopkinsville are invited to meet Mr. Pillsbury.

Those wishing to play Mr. Pillsbury will please bring their own boards and men.

**PRESS COMMENTS.**

"H. N. Pillsbury's exhibition last Saturday at the rooms of the Cjica Chess and Checker Club, playing sixteen games without sight of board or men in less than 5½ hours and making the score of 11 wins, 4 draws and 1 loss, was altogether so remarkable that every game deserves to be recorded in chess literature. He could probably beat all records by playing 18 or 20 games."—Chicago Tribune.

"H. N. Pillsbury's exhibition at the Franklin Chess Club yesterday was a record breaker. Never before was an attempt made to contest 20 games simultaneously without sight of board or men, nor was any previous scence such an array of strong players offered to a single performer."—N. Y. Sun.

"H. N. Pillsbury, the American Chess Champion, gave a blindfold exhibition at the Franklin Chess Club. By playing 20 games simultaneously without sight of board or men he established a new record. Pillsbury's score was 14 wins, 5 draws and 1 loss.—Philadelphia Ledger.

**The Commissioners Decide to Pay No Money Until the Case is Out of Court.**

Frankfort, Ky., Feb. 19.—The Goebel Reward Commission held a meeting of several hours' length here to-day, but took no action of importance. The meeting was held in the office of Commonwealth's Attorney Franklin and all of the members except John K. Hendrick were present. The advisability of offering additional rewards for the apprehension of Berry Howard and John L. Powers was discussed, but action on it was postponed until the next meeting.

No claims were presented for the \$5,000 reward for the conviction of Henry E. Youtsey, but the commission discussed the matter of rewards and decided that it could not pay any of the money until the case was entirely out of court, as more than ten convictions might result from the prosecution. A number of small accounts were allowed and the commission adjourned subject to the call of Chairman Lewis.

**EXCHANGE SUGGESTED.**

**But the Reeves Boys Sent to Indiana on Requisition.**

Frankfort, Ky., Feb. 20.—Sheriff J. Castrup and deputy, of Jasper, Ind., arrived here this morning with a requisition from the Governor of Indiana for the Reeves brothers, who are now in jail here, indicted for escaping from prison in 1896.

Gov. Beckham will hear a statement from the Reeves' attorneys before acting on the requisition.

The two prisoners, through attorney Walter Franklin, submitted a petition to Gov. Beckham, stating that they preferred to stay here, and to be tried under the indictment for escaping, but if Gov. Beckham was willing they would like to be exchanged for W. S. Taylor and Chas. Finley, who are in Indiana and wanted in Kentucky.

Gov. Beckham declined to consider the exchange idea, but granted the request, and the Reeveses will be taken to Indiana this afternoon.

Bradford Reed, Who Was Shot By John Cox at Frankfort, Died.

Frankfort, Ky., Feb. 20.—Bradford Reed, section foreman for the L. & N. railroad, who was shot last night by John Cox, a discharged employee of the road, died this morning.

Cox and Reed had some hot words in the afternoon. It is said that later Cox secured a pistol and waited for Reed at the end of the railroad bridge. When Reed appeared Cox fired four shots, three of them taking effect in Reed's left side, just below the heart. His wounds were not considered fatal at first, but death resulted at an early hour this morning.

Reed was a sober, industrious young man, and much liked by his superiors. Cox was quiet and inoffensive, except when drinking. Both lived in Frankfort.

Postoffice Building, Montgomery, Ala.

Henry John Morris, with office in the Magnolia Building above shown, in a letter building shown, in a letter to the Postmaster of the Postoffice Building, Montgomery, Ala., says: "I take pleasure in recommending Peruna as an excellent tonic and its recommended to me by those who have used it as a good catarrh cure."

Hon. Robert Barber, Register United States Land Office, also writes from Montgomery, Ala.: "For some time I have been a sufferer from catarrh in its incipient stage, so much so that I became depressed and feared my health would fail. I have used Peruna as a good remedy. I gave it a fair trial and soon began to improve. Its effects were distinctly beneficial, removing the annoying symptoms and was particularly good as a tonic."

Hon. J. K. Burke, Collector of Port of Mobile, Ala., writes: "Peruna I can recommend as a fine medicine. It has been used in my family and as a tonic it is excellent. I take pleasure in testifying to its fine qualities."

P. D. Barker, Postmaster of Mobile, Ala., writes: "Peruna, I can recommend as a fine medicine. It has been used in my family and as a tonic it is excellent. I take pleasure in testifying to its fine qualities."

John T. Burke, Collector of Port of Mobile, Ala., writes: "Peruna is a system remedy; we claim that Peruna is a system remedy; that it acts on the entire body, so it is to say that Peruna cures all disease in the system. But we insist that Peruna cures disease only internally. We claim that Peruna is the only internal, scientific remedy for catarrh yet devised. We claim that catarrh is a systemic disease; that is to say, it invades the whole system. We claim that Peruna is a system remedy; that it acts on the entire body, so it is to say that Peruna cures all disease in the system. Catarrh is not a local disease. Peruna is not a local remedy. Since catarrh invades the system, only a systemic remedy can reach it. This, in brief, our claim in assigning to the disease—catarrh—our remedy, Peruna."

Another interesting letter reads as follows:

"An interesting letter from a subscriber on catarrh in its different forms and stages, will be sent free to any address by The Peruna Medicine Co., Columbus, Ohio.

Unconstitutional Law.

Thomas Kearns, who has been elected United States Senator from Utah, is one of the richest men in the west. Like most others of the same description, he began his career in the most humble circumstances. A dozen years ago Mr. Kearns was a mine in the big Ontario of Park City. Although he was a common workman by occupation, he was possessed of foresight, ambition to rise above his surroundings, and spurred by the hope of owning a mine for himself and having other men in his employ.

He saved a considerable sum from his wages, and in looking about for a profit-

Louisville, Ky., Feb. 20.—The formal opening of the spring term of the Federal Court took place yesterday morning. The court was crowded, as the criminal cases were set for the day.

Judge Evans, in his charge to the grand jury, advised that indictments be brought against election offenders "in two classes of cases, namely, first, those which have grown out of conduct at any election where a Representative in Congress was voted for, and, second, cases where the statute of limitations of three years might run before the Supreme Court would probably act upon the ques-

tion." Judge Evans admitted that this section had been held unconstitutional, as applicable to purely State elections, but believed that the Supreme Court would reverse the decision.

## The Morning Telegraph.

"There is certainly no publication that attracts readers more easily than The Sunday Telegraph. The Telegraph and this up-to-date state of affairs is due to its clever knack of giving the reader just the kind of news he wants and presenting it in just the manner he likes to read it. The Sunday Telegraph's popularity is enhanced by special features not to be found in any other newspaper, and by a simple,明白的, direct, and forcible style of writing which is one of the best magazines."

Such is the opinion of the Cleveland Plain Dealer, and of every right thinking person, capable of discerning the merits of a publication, who has ever subscribed to the Telegraph. The Telegraph's popularity is due to its way and perfectly justifiable in cases of magazines, successful books and high literary efforts, but when a contemporary will of its own accord, give such a flattering testimonial to a rival sheet, then that paper, both in point of its literature and in the quality of the news it presents, must be considered a daily paper.

The Morning and Sunday Telegraph will be sent to any one desiring a specimen copy, by addressing The Morning Telegraph, 140 West Forty-second St., New York City, which, while it may not be a stock of trade, is a paper of great merit, and brought to the attention of its patrons they will find the investment a profitable one.

In the editorial comment on current affairs in the February Review of Reviews, the death of Queen Victoria and the accession of King Edward, as the overshadowing events of the past month, demand first place. Excellent portraits of the lamented Queen, the new King, Queen Alexandra and other members of the British royal family accompany the text. The editor analyzes the remarkable influence of Victoria as a sovereign, reviews her long and splendid reign and points out the elements of strength and stability in the monarchy as it will be administered by Edward VII.

## TWO HANGED.

Negroes Lynched in Tennessee  
After a Mob Trial.

They Were Accused of an As-  
sault on a Young  
Lady.

Dyersburg, Tenn., Feb. 18.—Last night a negro named Frank King assaulted Miss Muriel Arnold. She was terribly bruised and lacerated. This morning he was captured and brought to the place. Several hundred people surrounded the officers and took the negro from them. Carrying him to the public square they organized a court from among the mob, a judge and a jury being selected. He was first identified and then found guilty and sentence of death passed on him. He was immediately hanged in the courthouse yard.

An hour after the hanging of King, Sam Montgomery, another negro, who was King's accomplice, was captured, and the same formality gone through with. He was then lynched.

## ENTERS INTO A CONTRACT.

Groom Gives 14-Year-Old Bride to  
Her Parents for Two Years

Longer.

A youthful bride who appeared before Justice of the Peace McKeon to-day is Mary Jane Reaker, daughter of a farmer. She is only 14 years old, but does not look to be more than 12. She was accompanied by Nicholas Burkhardt, a well-to-do butcher of this city, who told the Squire that they had been lovers for a year and wanted to get married.

Because of the bride's youth, the groom entered into a legal contract with her parents, agreeing that she should continue to live with her mother until her sixteenth birthday, which will be Christmas, 1903, he to provide for her support in the meantime, and in every other respect treat her as his husband should treat his wife. After the ceremony the bride returned with her parents to their home on the farm, and the groom returned to his usual occupation in this city.—Wilkesbarre, Pa., Special.

"The eloquent entertainment
